- MULTIPLEX LIGHTING SOLUTION FOR DIGITAL CINEMAS
- ENERGY SAVING LED LIGHTS WHICH IS EASILY DIM NOW FLICKER FREE
- INTERFACE DEVICE WHICH IS EASILY INTEGRATED WITH DIFFERENT MAKES OF SERVER LIKE- QUBE,DORMI,GDC ETC.

**Suitable For**

Cinemas | Theatres | Hotels | Hotels Restaurants | Clubs & cafe

## Product Description MODEL- 9001 & 9002

Digital Cinema Dimming Module (Dimmers Panel) are designed for light automation control Requirement inside a Cinema Hall. The light intensity can be Controlled automatically through film type Cinema Projectors or Modern Digital Projectors like GDC / DOREMI / QUBE, Etc. Manual control is also provisioned through preset pots and feather Touch switches. Currently in huge Demand across major multiplexes Across the World for having proved its reliability and Performance Under adverse conditions.

Dimension: 225mm (H) x 210mm (W) x 85mm (D) Weight: 2.1kg Approx

### High Reliability

The GLOBAL- 9001 Dual (2) channel | The GLOBAL- 9002 Four (2+2) channel Digital Architectural Lighting Dimmers are high performance Microprocessor Controlled Dimming systems. Each dimmer channel is capable of dimming loads of up to 15 amps. Smooth glitch-free, Accurate fades are assured by the use of sophisticated Proprietary computer algorithms and an interface which has been Designed for total immunity to Interference. The dimmer may be controlled by an optional wall mount pushbutton Panel and/interfaces from suitable host computer control systems. The GLOBAL – 9001 & 9002 are high Reliability, "bullet Proof" systems designed and manufactured in India. Design u.k

### Suitable For

Cinemas | Theatres | Hotels | Hotels Restaurants | Clubst & Cafe

# Product Description MODEL- L01 S+D & L02

Multiplex Dimmers are designed for light automation control requirement inside a Cinema Hall.

The light intensity can be controlled automatically

Through film type Cinema Projectors or modern Digital Projectors like GDC/QUBE/DOREMI Etc.

Manual control is also provisioned through preset pots and feather touch switches.

Currently in huge demand across major multiplexes across the country for having proved its reliability and Performance under adverse conditions.

Dimension: 300mm (H) x 200mm (W) x 85mm (D) Weight: 3.6kg Approx

## High Reliability

The GLOBAL- L01 One (1) channel | The GLOBAL- L02 Two (2) channel

Digital Architectural Lighting Dimmers are high performance microprocessor

controlled dimming systems. Each dimmer channel is capable of dimming loads of up to 20 amps. Smooth glitch-free, accurate fades are assured by the use of sophisticated proprietary computer algorithms and an interface

which has been designed for total immunity to interference. The dimmer may be controlled by an optional wall mount pushbutton panel and/interfaces from suitable host computer control systems.

The GLOBAL - L01 are high reliability, "bullet proof" systems designed and manufactured in India.

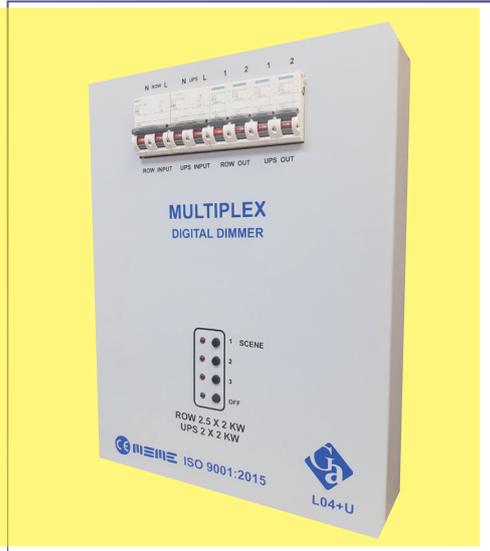

## Suitable For

Cinemas | Theatres | Hotels | Hotels Restaurants | Clubs & Cafe

## Product Description MODEL- L04

Cineplex Dimmers are designed for light automation control requirement inside a Cinema Hall. The light intensity can be controlled automatically through film type Cinema Projectors or modern Digital Projectors like GDC/QUBE/DOREMI Etc. Manual control is also provisioned through preset pots and feather touch switches. Currently in huge demand across major multiplexes across the country for having proved its reliability and performance under adverse conditions.

**Dimension:** 370mm (H) x 220mm (W) x 85mm (D) Weight: 6.5kg

## High Reliability

The GLOBAL- L04 Two channel +Expandable 0 to10 Digital Architectural Lighting Dimmers are high performance microprocessor Controlled dimming systems. Each dimmer channel is capable of dimming loads of up to 32 amps. Smooth glitch-free, Accurate fades are assured by the use of sophisticated proprietary computer algorithms and an interface which has been Designed for total immunity to interference. The dimmer may be controlled by an optional wall mount pushbutton Panel and/interfaces from suitable host computer control systems. The GLOBAL - L04 are high reliability, "bullet Proof" systems designed and manufactured in India.

Dimension: 370mm (H) x 220mm (W) x 85mm (D) Weight: 4.8kg Approx

## Dormi Data Interface

Overview:

All Common wires shall be connected to Cineplex Terminal strip (4wires) marked as COMMON

Wire from Contact 4 (Pin 24) shall be connected to OFF terminal of Cineplex

Wire from Contact 3 (Pin C8) shall be connected to Scene 3 terminal of Cineplex

Wire from Contact 2 (Pin C3) shall be connected to Scene 2 terminal of Cineplex

Wire from Contact 3 (Pin C4) shall be connected to Scene 1 terminal of Cineplex

All other connectors terminals shall not be used. It is important that no external voltage is connected on any of the Pinsdetailed above, All voltage and signals are internally generated by CINEPLEX.

Dimension: 95mm (H) x 65mm (W) x 20mm (D) Weight: 235g Approx

## Suitable For

Multiplex | Cineplex | Cinemas | Theatres | Hotels Restaurants

## Wired Call Button System

### Overview:

Two buttons placed on the chair (one to place the call & other one to cancel the call) are connected to a slab box which are directly connected to the master & slave display panels.

The moment patron sitting on the chair presses the button, the same gets reflected on the panel as a call to be attended.

### Serial Ports Patching:

All the hardware are interconnected using the CAT6 cable and RJ45 serial ports so as to make it more reliable and bug free

## Suitable For

Multiplex | Cineplex | Cinemas | Theatres | Hotels Restaurants

## Wireless Call Button System

### Overview:

Production Capacity: 1000 Piece/Pieces / Month

Means of Transport: Air

Product certification ISO

Wireless Cinemas call system with software management

Display info while standby

managed via software

ISO certificate

### Technical Parameter

- 1) Working voltage: DC12V-DC18V
- 2) Working current: 1A-1.5A
- 3) Sensitivity:  $\leq 106\text{db}$
- 4) Working Frequency: 433MHz

### Suitable For

Multiplex | Cineplex | Cinemas | Theatres | Hotels Restaurants

# LED VIDEO WALL

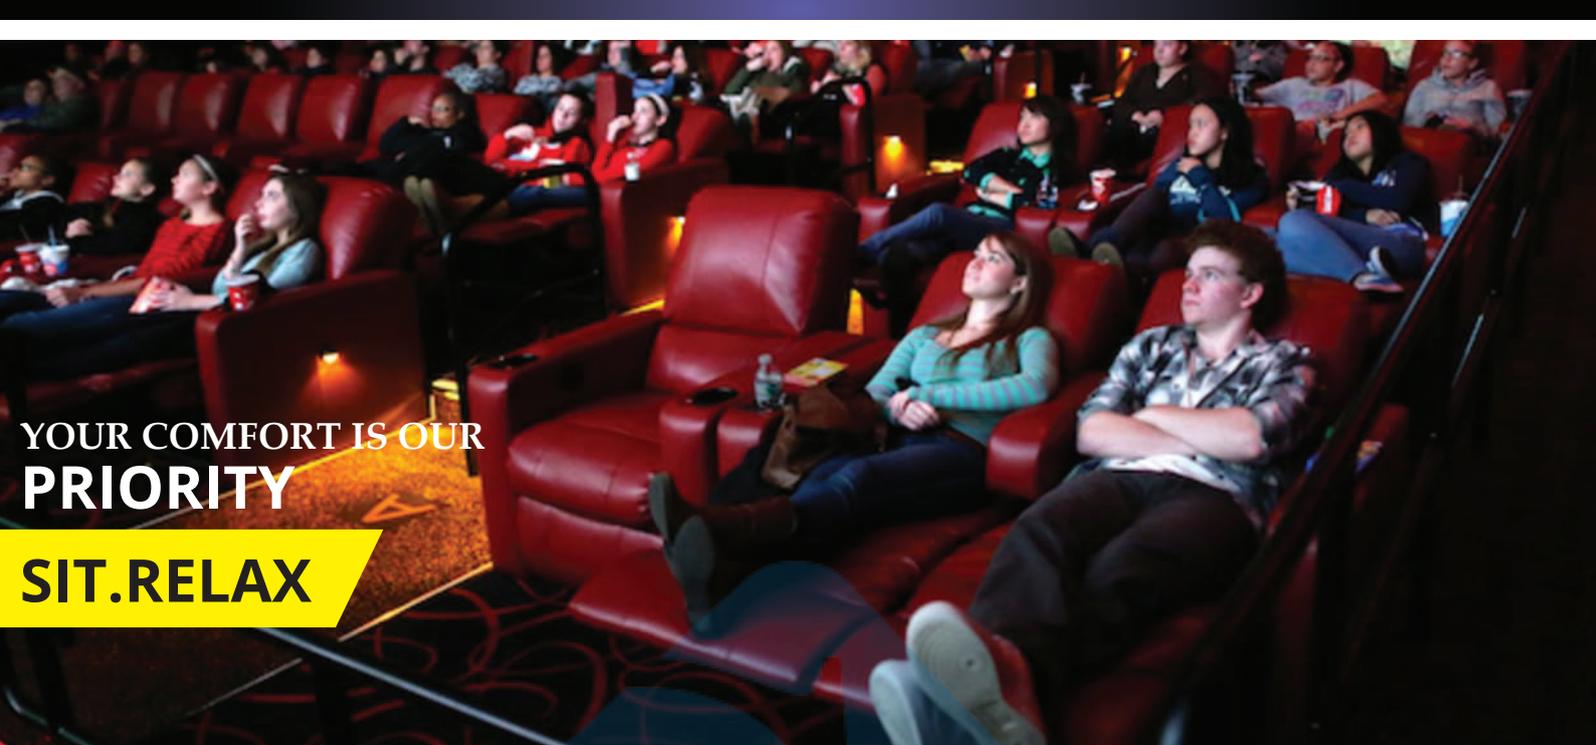

Video wall Displays with Multi screens 6X3
